

Date: October 17, 1996

To: Agency Ecosystem Restoration Team Members

From: Dick Daniel, Habitat Restoration
CALFED Bay-Delta Program

Subject: Agency Ecosystem Restoration Team Meeting

The next meeting of the AERT meeting will be held on **Thursday, October 24, 1996 from 1:30 p.m. to 4:00 p.m., in Room 1206**, of the Resources Building, at 1416 Ninth Street, Sacramento, CA.

Attached to this memo is a detailed agenda for the upcoming meeting. Some new material will be presented at this meeting, however, participants should refer to materials sent previously (especially, the Ecosystem Restoration Strategy, the issue papers on a process to develop targets and goals, and the Adaptive Management Strategy) in preparing for the meeting.

The primary objective of this meeting is to provide team participants with an overall view of how targets and goals fit into the overall planning process for the ecosystem restoration program. Much of the material presented will also be presented to the public at the Ecosystem Restoration Workshop scheduled for November 19. We anticipate that feedback from participants at the team meeting will be helpful in helping Program staff prepare materials for this workshop.

We look forward to your participation at the next meeting.
